

99.99% Waste Reduction

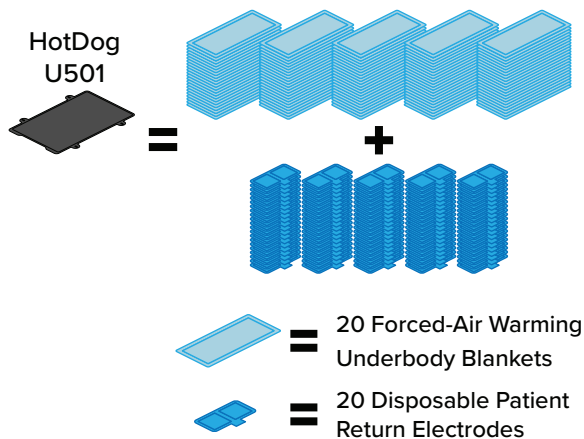

The environmentally friendly, 2-in-1 HotDog Patient Warming Mattress + Return Electrode greatly minimizes waste compared to single-use alternatives.

HotDog Patient Warming Mattress + Return Electrode

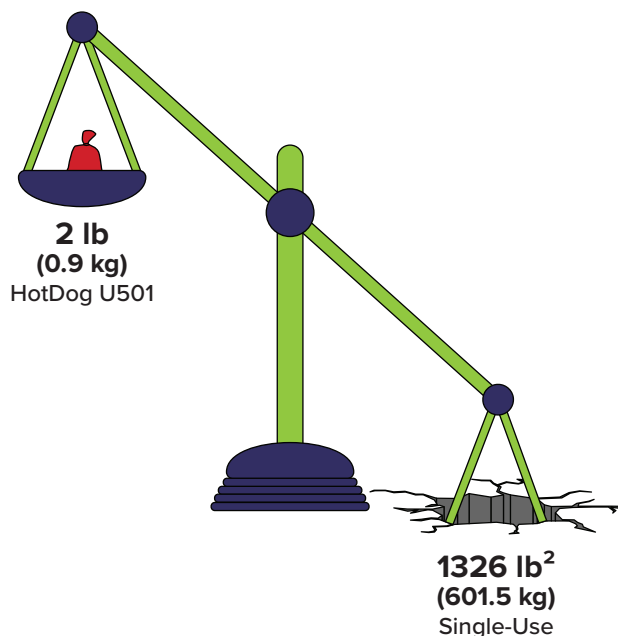

- Lightweight, HotDog U501: 2 lb (0.9 kg)
- 2-in-1: Warming **and** Grounding
- 2 year lifetime
- Supports green initiatives

Disposable Return Electrode + Forced-Air Warming Underbody Blankets

- 3.2 oz (0.1 kg) per Sticky Pad
- 7 oz (0.2 kg) per Blanket
- Single-use
- Generates significant waste with each use

Single OR Waste Over Two Years

During the lifetime of a single HotDog U5XX, an Electrosurgical Operating Room would use 2080¹ disposable return electrode pads AND Forced-Air Underbody Warming Blanket. Reduce Waste by up to 99.99% for a greener future.
